INTRODUCTION

INTRODUCTION

The state's Uniform Crime Reporting (UCR) Program is responsible for the collection, maintenance and dissemination of crime statistics received from approximately 250 local law enforcement agencies throughout the state of Kansas. This program housed within the K.B.I. is an integral part of the national program administered by the Federal Bureau of Investigation. The F.B.I. publishes an annual report entitled CRIME IN THE UNITED STATES. The data shown in this publication are collected under two primary statutes, K.S.A. 21-2501a and K.S.A. 21-2504. A copy of these statutes is found on page 155.

Statistics are collected on eight specific criminal offenses, namely murder and non-negligent manslaughter, rape, robbery, aggravated assault, burglary, larceny/theft, motor vehicle theft and arson. These offenses referred to as the Crime Index throughout this publication are separated into two categories, violent crimes and property crimes. Violent crimes include murder and non-negligent manslaughter, rape, robbery and aggravated assault, while property crimes encompass burglary, larceny/theft and motor vehicle theft. Arson is also considered a property crime; however, arson statistics are collected in a supplemental manner and are shown separately in Section I. These particular crimes were selected because of their severity, frequency of occurrence and the likelihood of their being reported to law enforcement agencies. All other crimes are considered Part II crimes for which arrest statistics only are collected.

The state UCR program follows definite federal guidelines and reporting procedures in the operation of this system. When more than one crime occurs in a situation, only the most serious crime is counted. By the same token, when a person is arrested on multiple charges, only the most serious charge is recorded; however, if a person is arrested more than once in a reporting period, each separate arrest is tallied.

Crimes may be cleared in two ways, either by arrest of one or more subjects involved or by "exceptional means" in which case officers are precluded by extenuating circumstances from making an arrest. If one person is arrested for the commission of several offenses, each offense is then cleared. Further, according to these guidelines, agencies are to report arrests made only for crimes committed within their jurisdiction.

Attempts to do agency-to-agency comparisons are discouraged because of several factors, such as composition of population, socioeconomic conditions, effectiveness of the local law enforcement agency and records maintained by that agency.

The cooperation and assistance of the 250 local law enforcement agencies who contributed the data for this publication are deeply appreciated. Their efforts allow the K.B.I. to respond to numerous statistical requests in a timely manner and to provide many services to the public and criminal justice community.

SECTION I

OFFENSES COMMITTED

CRIME INDEX OFFENSES

The tables and figures shown in this section represent a more detailed summary of seven of the Crime Index Offenses (murder and non-negligent manslaughter, rape, robbery, aggravated assault, burglary, larceny/theft, and motor vehicle theft). A unit is dedicated to each of these offenses as well as to arson where the reader will find the projected number of crimes for 1984 and various other breakdowns of the Crime Index Offenses.

In 1983 there were 109,696 reported offenses for the above mentioned crimes, representing a 7.9% decrease from 1982. Property stolen in 1983 totaled $49,558,215, down 6.4% from 1982. Local agencies recovered $14,189,375 in stolen property, a decrease of 15.3% from the previous year.

There were 28,008 clearances of Part I Crimes, reflecting a 13.1% increase over 1982. Table 4 shows the total number of clearances for the above seven crimes; however these figures will not necessarily relate to the specific crimes committed this year.

Some of the tables presented in this section will provide data for past years, thereby giving a more historical view of reported crime in Kansas. Noted in Table 3 are Crime Index Offenses from 1973-1983. Of the offenses listed in this table, motor vehicle theft represents the only decrease in a crime category in that time period. Murder and non-negligent manslaughter represented the smallest increase, 01.5%, while aggravated assault reported the largest increase of 106.0% from 1973-1983.

VIOLENT CRIMES

Murder and non-negligent manslaughter, rape, robbery, and aggravated assault make up the "violent crime" category wherein there is a direct confrontation of victim and suspect.

There were 7,912 violent crimes in 1983 compared to 8,081 in 1982, a decrease of 02.1%. Violent crimes experienced a 66.0% increase from 1973 to 1983 according to Table 3.

Figure 4 indicates violent crime trends from 1974-1983 with approximately 7,399 violent crimes expected to be reported for 1984.

Figure 5 shows that a violent crime occurred in the state of Kansas every 1 hour and 6 minutes. Time clocks are also provided for specific violent crime categories mentioned above.

MURDER AND NON-NEGLIGENT MANSLAUGHTER

Kansas Statutes define murder and non-negligent manslaughter as follows:

> "Murder in the first degree is the killing of a human being committed maliciously, willfully, deliberately and with premeditation or committed in the perpetration or attempt to perpetrate any felony," (K.S.A. 21-3401).
>
> "Murder in the second degree is the malicious killing of a human being, committed without deliberation or premeditation and not in the perpetration or attempt to perpetrate a felony," (K.S.A. 21-3402).
>
> "Voluntary manslaughter is the unlawful killing of a human being, without malice, which is done intentionally upon a sudden quarrel or in the heat of passion," (K.S.A. 21-3403).

The national program defines murder as "the willful (nonnegligent) killing of one human being by another," (Uniform Crime Reporting Handbook, 1980, page 6).

There was one less murder in 1983 than in 1982, a decrease of 0.7%. Family related murders totaled 40, while 26 of the 137 were felony related (another crime being involved such as rape, robbery, etc.) Tables 14 and 15 depict white non-Hispanic males between the ages of 22-30 are more likely to be victims and offenders of murder than any other group of people. Firearms were used in 80 of the murders, knives were used in 27 of these offenses and personal weapons (hands, feet, fists) in 17.

JUSTIFIABLE HOMICIDE

Justifiable homicide is defined as:

> "1. The killing of a felon by a peace officer in the line of duty,
> 2. The killing (during the commission of a felony) of a felon by a private citizen."
> (Uniform Crime Reporting Handbook, 1980, page 6)

There were five justifiable homicides in 1983, all involving firearms as weapons. Four of the victims were white males, one was a black male. Two of the five justifiable homicides were committed by police officers, one responding to a domestic disturbance and the other involving a burglary in progress. The other three incidents were by citizens during the commission of a felony.

NEGLIGENT MANSLAUGHTER

Negligent manslaughter is defined for the Uniform Crime Report as "the killing of another person through gross negligence," (Uniform Crime Reporting Handbook, 1980, page 9).

There were six negligent manslaughters in 1983, four involving the use of a firearm, one by personal weapons, and one by animals. Only one of the victims was a stranger to the offender, two involved family members, and three were acquaintances of the offender.

RAPE

The definition of rape under K.S.A. 21-3502 was broadened in the 1983 legislative session to include:

> "...sexual intercourse with a person who does not consent to the sexual intercourse..."

This definition coincides with that provided under the national program.

Rape is the only Crime Index offense to reflect an increase from 1982. In 1983 there were 627 reported rapes, an increase of 05.0%. Table 22 indicates that in nearly one-half of the reported rapes the victim did not know their offender, while Table 23 shows that no weapons were involved in 45.5% of the rapes. Other tables shown will include victim/offender demographics, specifics concerning rapes reported by month and an hourly trend of rapes.

ROBBERY

The following is the definition of robbery as found in K.S.A. 21-3426:

> "...the taking of property from the person or presence of another by threat of bodily harm to his person or the person of another or by force."

This definition concurs with UCR guidelines for robbery.

Robbery reflected a 02.9% decrease in 1983 from those reported in 1982. Of the 2,034 robberies occurring in 1983, firearms were used in 878; 283 were with knives, personal weapons (hands, feet, fists) were used in 576, and 297 were committed with some other type of weapon.

Highway robberies, those generally occurring on the street or outside of structures, constituted the largest sub-category of robberies. Value of property stolen during those 843 robberies totaled $228,305. The smallest number of robberies and the largest monetary value stolen occurred to banks with 34 reported robberies and $229,476 taken in those offenses.

Robberies increased 15.0% from 1973 to 1983 according to Table 3.

AGGRAVATED ASSAULT

Aggravated assault is defined in Kansas under K.S.A. 21-3410 as:

> "(a) Unlawfully assaulting or striking at another with a deadly weapon; or
> (b) Committing assault by threatening or menacing another while disguised in any manner designed to conceal identity; or
> (c) Willfully and intentionally assaulting another with intent to commit any felony."

Aggravated assault is defined for the Uniform Crime Report as:

> "An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm," (Uniform Crime Reporting Handbook, 1980, page 15).

Aggravated assaults accounted for 64.6% of the total violent crimes in 1983. Of the 5,114 aggravated assaults, 1,330 were committed with a firearm, 1,091 were with a knife or cutting instrument, personal weapons (hands, feet, fists) were used in 1,269, and 1,424 were by some other type of dangerous weapon.

For those assaults where a weapon was not used or no injury incurred, simple assaults are tallied. These assaults are considered a Part II crime and therefore, are not reflected in the Crime Index totals.

> "Simple assaults do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and are those assaults where there were no serious or aggravated injuries to the victims," (Uniform Crime Reporting Handbook, 1980, page 16-17).

There were 14,873 reported simple assaults in 1983 compared to 14,333 in 1982.

PROPERTY CRIMES

Property crimes include the three Crime Index offenses of burglary, larceny (theft), and motor vehicle theft.

There were 101,784 reported property offenses in 1983, a decrease of 8.4% from 1982; however for the time period of 1973 to 1983 property crimes increased 40.8%.

Figure 10 indicates property crime trends from 1974-1983 and further shows the projected number of property crimes for 1984.

A property crime occurred every 5 minutes and 10 seconds in Kansas.

BURGLARY

Burglary in Kansas is defined under K.S.A. 21-3715 as:

> "...knowingly and without authority entering or remaining within any building, mobile home, tent or other structure, or any motor vehicle, aircraft, watercraft, railroad car or other means of conveyance of persons or property, with intent to commit a felony or theft therein."

This definition generally parallels with the UCR definition of the national program.

Burglaries reported in 1983 decreased 12.6% from 32,338 in 1982 to 28,277. Residential burglaries accounted for 63.4% of all burglaries with $9,453,412 being taken during those offenses. Non-residence burglaries totaled 10,342 with $6,520,885 reported in stolen property.

Of the total burglaries, 20,525 were committed by forcible entry, 5,847 were unlawful entry with no force involved (unlocked doors, windows, etc.), and 1,905 were attempted forcible entries.

LARCENY (THEFT)

Kansas Statute K.S.A. 21-3701 defines theft as:

> "...any of the following acts done with intent to deprive the owner permanently of the possession, use, or benefit of the owner's property:
> (a) Obtaining or exerting unauthorized control over property; or
> (b) Obtaining by deception, control over property; or
> (c) Obtaining by threat, control over property; or
> (d) Obtaining control over stolen property knowing the property to have been stolen by another."

The Uniform Crime Reporting Handbook defines larceny (theft) as "the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another." All larcenies are counted regardless of monetary loss, as well as attempted larcenies.

There were 68,636 larcenies in 1983, a decrease of 6.5% from 1982. A breakdown of the types of larcenies is provided in Table 29.

MOTOR VEHICLE THEFT

According to UCR guidelines, a motor vehicle is defined as "a self-propelled vehicle that runs on the surface and not on rails," (Uniform Crime Reporting Handbook, 1980, page 27). Motor vehicle theft in Kansas is included within the theft statute K.S.A. 21-3701; however, these thefts are tabulated separately because of the volume and the monetary value involved.

There were 4,871 motor vehicle thefts in 1983. These included 2,815 automobiles, 1,036 trucks, and 1,020 other vehicles (motorcycles, mopeds, trailbikes, etc.). Motor vehicle thefts involved property loss amounting to $16,912,032; however the total value of stolen motor vehicles was $17,908,244. The discrepancy in these two numbers lies with the use of the Hierarchy Rule which states that "when motor vehicles are stolen concurrently with the commission of a higher offense, the value of the stolen vehicle is entered with the higher offense." Recovered vehicles by law enforcement agencies totaled 3,175.

ARSON

Arson is defined in K.S.A. 21-3718 as:

> "...knowingly, by means of fire or explosive:
> (a) Damaging any building or property in which another person has any interest without the consent of such person; or
> (b) Damaging any building or property with intent to injure or defraud an insurer or lienholder."

Arson decreased 15.4% in 1983, from 1,006 reported offenses in 1982 to 851 in 1983, with property damage totaling $5,683,478. Arsons are broken down by three categories under the UCR program, structural, mobile and "other" which includes crops, timber, fences, signs and any property stored outside structures. Arsons to structural property accounted for 60% of the total arsons, mobile property totaled 22% and the "other" category made up 18% of the total arsons.

Data in this chapter will reflect other breakdowns of arson by month and cities over 10,000 in Tables 33-34, while Tables 35-40 will present data collected by the State Fire Marshal's Office under the Kansas Fire Incident Reporting System.

SECTION II

ARRESTS

ARRESTS

Specific demographics concerning the age, sex, race and ethnic origin of persons arrested, cited or summoned for criminal acts are collected on a monthly basis from local law enforcement agencies. Arrests are to be counted only for those crimes committed within a jurisdiction, not for arrests made for other agencies.

Arrests for 1983 were down slightly, 2.6%, from 77,463 in 1982 to 75,426. There were 17,943 arrests for Crime Index offenses and 57,483 arrests for Part II Crimes. Juveniles constituted 19.8% of the total arrests for Part I Crimes.

Other tables will reflect data by age, sex, race, and ethnic origin by specific offense and by reporting agency as well. Table 48 reports Juvenile Dispositions by five categories. In these instances, an actual arrest is not always tallied where "depending upon the seriousness of the offense and the offender's prior criminal record, a juvenile may be warned by the police and released to parents, relatives, friends, or guardians," (Uniform Crime Reporting Handbook, 1980, page 71). However, this figure will include the total number of juveniles arrested.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Kansas was fortunate in not having any law enforcement officers killed either accidentally or in the line of duty in 1983.

Assaults on law enforcement officers decreased 10.2%, from 1,130 in 1982 to 1,015 in 1983. Of these total assaults, 77.1% were without serious injury; 844 of these offenses, or 83.2%, were committed by hands, feet, or fists. The highest incident of assault occurred while responding to some type of disturbance with this category accounting for 42.5% of assaults. Approximately one-third of the assaults occurred between the hours of 10:00 p.m. and 2:00 a.m. Assaults cleared totaled 976 in 1983.
